Date: Monday, June 17, 2013 10:52:59 AM

Good morning – We are starting the drilling and sampling at 500 Flatbush Avenue in Hartford, Connecticut on Monday 6/24/2013. The lab will turn the samples around on a 10-business day basis. We expect results to begin filtering in around July 12. All work will be completed in accordance with the approved scope of work for the limited environmental investigation. Please call me with any questions. Thanks. John.

Subject: FW Limited Environmental Investigation

Hi John:

I left you a voice mail message about this. I did not include the draft CAFO since it is a draft but your client is free to send it to you.

Let me know if you have any questions

Marianne Milette
EPA Region 1

Subject: Third Amendment to CAFO for Danny Corp

Alan and Dwight:

We agree to Stantec's proposal for the Limited Environmental Investigation (LEI) submitted

on May 30. We would ask Stantec to start the LEI immediately, in order to finish it by August 31. The LEI will not substitute for Danny Corp's obligations under the CAFO, however, so I have attached a new amendment to clarify how the LEI fits in with those other obligations.

Note also that this CAFO amendment requires you to propose for EPA's approval, by June 30, some form of financial assurance of Danny Corp's ability to complete the work.

Please have the CAFO amendment signed and send me the original signed copy, which I will then submit for approval by the Regional Judicial Officer.

Feel free to call if you would like to discuss. Thanks.
